

Proud recipient of a **Lipper Fund Award** for the third year in a row

The annual Refinitiv Lipper Fund Awards pay tribute to outstanding fund performance, honouring success. This year, we are honoured to have received a Global Islamic Lipper Fund Award for our:

CAMISSA ISLAMIC BALANCED FUND - *best fund over 3, 5 and 10 years in the Mixed Asset ZAR Balanced category*

This is independent recognition of our performance track record and investment approach delivering meaningfully and consistently for clients across the risk spectrum. It also demonstrates that Shariah-compliant funds can outperform conventional funds.

For more than three decades, these awards have recognised funds and fund management firms for their consistently strong risk-adjusted three-, five- and ten-year performance relative to their peers. Based on Lipper's quantitative methodology, the awards reflect a truly independent and uncompromised assessment of fund performance.

The merit of the winners is based on objective, quantitative criteria, coupled with the unmatched depth of fund data resulting in a unique level of prestige and ensuring the award has lasting value. Renowned fund data and proprietary methodology is the foundation of this award qualification, recognising excellence in fund management in over 17 countries worldwide.
