

Kagiso Global Equity Fund

September 2018

Date of issue: 10 October 2018

Risk and reward profile

This fund aims to be fully invested in international equities and is positioned in our team's best ideas, which emanate from our bottom-up research process. This usually entails significant deviations from market cap-weighted benchmark positions. Active portfolio management is incorporated in search of an optimal risk/reward balance and consistent positive alpha.

Unit trusts are generally medium to long-term investments. The value of units will fluctuate and past performance should not be used as a guide for future performance. Kagiso does not provide any guarantee either with respect to the capital or the return of the portfolio(s). In addition, macroeconomic, political, foreign exchange, tax and settlement risks may apply. However, our robust investment process takes these factors into account. Unit trusts are traded at ruling prices and can engage in scrip lending and borrowing. Exchange rate movements, where applicable, may affect the value of underlying investments. Different classes of units may apply and are subject to different fees and charges. Kagiso has the right to close the portfolio to new investors in order to manage it more effectively in accordance with its mandate.

The Fund is authorised in Ireland and is regulated by the Central Bank of Ireland.
