Kagiso Collective Investments Limited is a subsidiary of Kagiso Asset Management to which the investment of its unit trust funds is outsourced. The Kagiso Islamic Equity Fund is a Collective Investment Scheme portfolio (unit trust) registered in terms of the Collective Investment Schemes Control Act under the Kagiso Unit Trust Scheme. Unit trusts should be considered a medium- to long-term investment. The value of units may go down as well as up. Past performance is not necessarily an indication of future performance. Unit trusts are traded at ruling prices and can engage in scrip lending and borrowing. Fluctuations or movements in exchange rates may cause the value of underlying investments to go up or down. Instructions must reach Kagiso Collective Investments before 2pm to ensure same day value. Fund valuations take place at approximately 15h00 each business day and forward pricing is used. The manager is a member of ASISA. Performance is quoted from Morningstar as at 31 October 2010 for a lump sum investment using Class A NAV prices with income distributions reinvested. Performance figures are quoted after the deduction of all costs incurred within the fund. 'The TER is calculated as a percentage of the average NAV of the portfolio incurred as charges, levies and fees in the management of the portfolio for a rolling 12-month period to end September 2010. A higher TER ratio does not necessarily imply a poor return nor does a low TER imply a good return. The current disclosed TER cannot be regarded as an indication of future TER's.
