Camissa

Asset Management

This fund is Regulation 28 compliant and can invest in a wide variety of domestic and international asset classes (such as equities, listed property, conventional bonds, inflation-linked bonds and cash). As the fund aims to maximise returns, it will have a strong bias towards equities - typically the asset class with the highest expected long-term returns. The fund is positioned in our team's best ideas - which emanate from our bottom-up research process - and is actively managed to maximise long-term returns without assuming excess risk of loss.
